

DIY PEGASUS

For an interesting activity with your loved ones or roommates, use arts and crafts to make an origami Pegasus! We've provided a link to an instructional video below. Keep in mind this is an intermediate activity so children may need assistance from an adult.

Be sure to use a perfect square piece of paper and it's recommended to use the dimensions in the video.

Once you're done, share your creation on social media and tag **@KyDerbyFestival**.
